Circular Sent Out.

OPINION OF DREWRY ASKED

Ashland Postmaster Again to the Front-Representative

Maynard Ill.

(From Our Regular Correspondent.)

WASHINGTON, D. C., June 33.—President Gompers, of the American Federation of Labor, stated to-day that the obroular issued this week, purporting to give names of members of Congress friendly to organized labor, was "imauthorized." The circular was unaigned, but it was understood to have emanated from the Federation of Labor. The fact that several prominent members of Congress were omitted from the list caused comment. The name of Representative Flood, of Virginia, was offilted, and likewise the name of Representative Rivey. Mr. Gompers is quoted as saying that there was a mistake in the case of Mr. Flood; he made no statement concerning Messrs. Rixey and Lamb. It is thought possible that the opposition of Mr. Lamb to compulsory pilotage and his advocacy of the bill to abolish it, which is now pending, caused his name to be withheld from the list of those friendly to the cause of the workingman.

The House committee which has been investigating the affairs of St. Elizabeth's Asylum, the government hospital for the insane in this city, for several weeks, has invited Dr. Drewty, of the Central State Hospital, at Petersburg, to come to the asylum on next Monday, spend the day with other allenists or distinction investigating conditions, and appear with them before the committee on the following day. The visitors will be asked to make criticisms of the management of the institution, and to suggest improvements therein.

Ashland Postmastership.

The name of Thomas Fox has been
sent to the Senate a second time as appointee to the office of postmaster of
Ashland. The President withdrew the
name of Mr. Fox several weeks ago
on the request of over two hundred citisens of Ashland and Hanover county,
who purported to be Republican voters,
and Mr. Roosevelt promised Captain
Lamb that he would send in the name
of Mr. Fleet, the incumbent.

But the Postmaster-General has reported to the President that irregularities have been found in Mr. Fleet's conduct of the office, charging that he has
been making irregular sales of stamps
contrary to postal laws and regulations,
and that he has also violated these in
failing to make daily entries of value of
stamps sold, which omission made the
irregularities more difficult of discovery.
Captain Lamb said to-day he did not
believe a fair show had been given Mr.
Fleet, and that had opportigity, been offered him he could have explained irregularities. "Fleet is a high man," said
Captain Lamb, "and I feel that he should
have been allowed to explais matters."

There is politics behind the reappointment of Fox, in the opinion of those
best informed on the subject. The Sleengs
indorsed Fox for some reason, although
he was a Democrat as late as the senatorial primary last summer and voted
for Governor Montague for the Senate
Mr. Fleet has been an active Republican
for years and made a popular official.

The Democratic conferce on the part of the House, Representative Taylor, of Alabama, said to-day he believed that his Republican colleagues, Messrs. Tawney and Smith, would recede from their position of opposition to the amendment to the bill, added in the Senate, making an appropriation to the Jamestown Exposition. Of course, the Senate conferces will have to vote to retain the amendment, which was added in the Senate without opposition. The prospects for an appropriation of a million and a half for the exposition are excellent, and the friends of the exposition have a right to expect the appropriation to be made.

WASHINGTON, June 22.—Unexpectedly
Mr. Hepburn, chairman of the House
Committee on Interstate and Foreign
Commerce, and chairman of the conferees
on the raliroad rate bill, called up in the
House the conference report on that
measure to-day. He asked that the report be considered now instead of going over for printing until Nyonday. He
explained that possibly there might no
some discussion on the "sleeping car"
and "anti-pass" amendments. In the first
case he stated that sleeping cars remained in the bill, while the anti-pass
amendment had been modified so as to
apply only to Federal, State and territorial offices, officials of the postoffice
department in certain particulars being
exempted.

Mr. Hepburn explained that it was the

The question has arisen through the effort of the Baloise Insurance Company, of Basie, Switserland, to withdraw its deposit of \$200,000 from this State on the ground that it has ceased to write insurance in the continental United States, but Superintendent Kelsy, of the State insurance department, has refused to permit such withdrawai as the company is still doing business in the Philippine islands, and he wishes the State courts to determine whether the policyholders in that country are included in the class for whose protection the fund is deposited. Exhaustive Denate.

Not in a long time has the House been treated to so exhaustive and instructive dehate on an exicle of commerce as it was treated to by the reports from Southern States, in whose districts whiskey is made and rectified.

Mr. Richardson told how "straight" whiskey was made, its color being se-cured from the charred oak barrel into

which it is put, and after remaining there a number of years, is bottled in bond, the green stamp of the government being the pledge of its purity.

Mr. Sherley (Kentucky) in behalf of the rectifiers, held the attention of the House as he explained the contention of the two whiskey camps, the distillers and the rectifiers. Pure Hell, He Says.

The speech of Mr. Sherley brought Mr. Stanley (Kentucky) into the arena in front of the speaker's desk, to demonstrate how the "blender" makes "blended" whiskey.

He said he had no objection to anybody blending two kinds of whiskey, but he did object to making whiskey while you wait. Then, taking a bottle from the table, he poured it into a graduate and said:

"Here is a quart of alcohol, one hundred proof strong. It will eat the intestines out of a coyote. It will make a howling dervish out of an anchorite. It will make a rabbit spit in a buil dog's face. It is pure alcohol, and under the skill of a rectifier he will reit in a little coloring matter and then a little bead oil (llustrating). I drop that in it. Then I get a little essence of Bourbon whiskey and there is no connoissour in this House who can tell that hellish business from the genuine article, and that is what I denounce. (Applause).
"I say that the coloring matter is not harmful; I say that the caramels are not harmful, but I say that the hody stock of the whiskey I made is rank alcohol, and when it gets into a man, it is pure hell." (Applause.)
